

ITIL® Foundation Certificate

Duration 3 Days

COURSE DESCRIPTION

This exciting and dynamic 3-day course, fully updated for ITIL 2011, introduces learners to the lifecycle of managing IT services to deliver to business expectations. As well as an engaging, case study based approach to learning the core disciplines of the ITIL best practice, this course also positions the student to successfully complete the associated exam, required for entry into the future ITIL intermediate level training courses.

The ITIL best practice is composed of five core disciplines: Service Strategy, Service Design, Service Transition, Service Operations and Continual Service Improvement. These disciplines represent a service life cycle framework that further enhances alignment to the business while demonstrating business value, ROI and enabling IT to solve specific operational needs.

AUDIENCE

IT Management, IT Support Staff, IT Consultants, Business Managers, Business Process Owners, IT Developers, Service Providers, System Integrators

PREREQUISITES

None, although a familiarity with IT service delivery will be beneficial.

COURSE OBJECTIVES

At the end of this course, you will be able to:
