

AgileBA Certification

Duration 3 Days

COURSE OBJECTIVES

Developed by APMG in partnership with the DSDM Consortium, AgileBA is a new guidance, training and certification scheme designed for business analysts working in an agile environment. The Business Analyst is a critical role within an agile project team and with more and more organizations adopting agile approaches, we need to ensure those performing this crucial role have the necessary skills and expertise.

This course has been designed to give the Business Analyst the skills needed to successfully gather, analyse, validate and champion the requirements throughout an AGILE project. It also gives context to the Agile Business Analyst role beyond the individual project, in relation to organizational mission and strategy, providing additional depth and guidance for business analysis in an agile context

OBJECTIVES AND OUTLINE

This course and qualification provides an AgileBA guidance and training on

- Lay the foundations for successful agile projects
- Explain how the business analyst role and skills fit in an Agile environment
- Clarify the different ways of working with the Agile BA during the phases of an Agile project
- Outlines the lifecycle of an Agile requirement and how to write good, effective Agile requirements
- Provide a comprehensive set of techniques and practices for effective business analysis and collaborative agile working.

WHO SHOULD ATTEND

- Key staff and subject matter experts involved in Agile Project:
- Business Analysts
- Agile Project Manager and Members
- Scrum Developers
- Product Owners

CERTIFICATION AND EXAMINATION

The AGILEBA examination will lead to Foundation certification. The format of the examination is as follows:

- Multiple choice questions
- 50 questions per paper
