

# COBIT®5 Foundation

Duration 3 Days

## COURSE OUTLINE

COBIT5 helps enterprises maximize the value of their information -the currency of the 21st century. Throughout its history, COBIT has been used by enterprises around the world to improve management of enterprise IT and governance.

COBIT5 provides globally accepted principles, practices, analytical tools and models designed to help business and IT leaders maximize trust in, and value from, their enterprise's information and technology assets. COBIT5 provides guidance to executives and those charged with making decisions concerning the use of technology in support of organizational objectives. This framework helps business leaders address the needs of all stakeholders across the enterprise and ultimately maximize the value from information and technology.

COBIT5 integrates existing ISACA risk and value management frameworks into an established governance framework provided for in earlier versions of COBIT.

## COURSE OBJECTIVES

On completion of this course, the following learning outcomes will be achieved:

- Understand the governance and management of enterprise IT
