

ITIL® 4 Specialist: Monitor, Support and Fulfil (ITIL4 MSF)

Duration: 3 Days

COURSE DESCRIPTION

The ITIL4 Monitor, Support and Fulfil course is designed to equip IT professionals with the knowledge and skills required to effectively monitor, support, and fulfil IT services in alignment with the ITIL4 framework. This course builds upon the foundational concepts of ITIL4 and focuses specifically on the activities involved in monitoring, supporting, and delivering high-quality IT services to meet organizational goals and stakeholder expectations.

Participants will explore the key principles and practices of ITIL4 in the context of monitoring, supporting, and fulfilling IT services. They will learn how to establish effective monitoring mechanisms to ensure service performance, availability, and capacity. Participants will also gain insights into incident management, problem management, and service request management practices, enabling them to efficiently resolve issues and fulfil service requests through channels such as Service Desk.

By the end of this course, participants will possess a comprehensive understanding of ITIL4 principles and practices related to monitoring, supporting, and fulfilling IT services. The course also includes guidance to measure practice capability levels and understand factors that correlate with practice success.

COURSE OBJECTIVE

On completion of this course, the following learning outcomes will be achieved:

- Define the key concepts, principles, value and challenges of ITIL 4's five management practices
- Ensure stakeholders understand the strategic and operational requirements to co-create value and achieve business goals
- Integrate the practices in the organization's value streams
- Understand the interfaces and synergies across these five practices
- Apply metrics and practice success factors to improve performance
- Measure, assess and develop the capability of the various practices covered by using the ITIL Maturity Model
